So exercised is "Big Tim" over the degradation he feels has been put upon him that he has appealed to the police court to set him right. "As a matter of fact, if I had known that this man contemplated sneaking up on his wife and breaking down a flat door to satisfy his own sense of outraged dignity I would have felt like tipping her off that he was coming. I don't believe in such things. If a husband finds his wife is deceiving him it won't do him any good to set a trap for her and drag her to a police station and destroy in that way any self-respect she may have left. There are two sides to every story of a domestic unhappiness.

"Benny Lane" as Sen'tman cal's himself, got his start through the influence of the Sullivans down around the Five Points and gravitated uptown. He is a ticket speculator and has been wont to pose around the Metropole and Jack's and other uptown places of resort as one of "The Big Feller's" right hand men. It may be forecasted without fear of a reverse that the career of Mr. Senfiman around the haunts he has graced has come to a sudden termination.
